DETAILED ACTION

Allowable Subject Matter

Claims 2, 5-11, 19-21 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a differential amplifier that has, in combination with other limitations, a differential switch circuit, coupled to said first differential pair and said second differential pair, and capable of controlling a first current flow to said first differential pair and a second current flow to said second differential pair; nor does it have a method of extending an input signal range of a component that receives the input signal that has the step of selecting a subcomponent, from a plurality of subcomponents within the component, to process said level shifted voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
